1MDB Prosecutors and Investigators Meet in Putrajaya

We are pleased to report a very successful meeting between prosecutors, civil recovery specialists and investigators from the United States, Singapore and Switzerland involved in the massive 1MDB fraud, hosted by this Chambers.

The participants were conscious of the importance and urgency of cross-border cooperation and collaboration in order to combat crime committed internationally and across national borders.

We thank the delegations from the foreign parties for their further assistance in the war against transnational fraud and crime. All of us are confident that this meeting will be the harbinger of greater cooperation in the future.
